

Soft Boot/Tonneau Cover

To Fit: Classic Saab 900 Convertible: 1986-1994

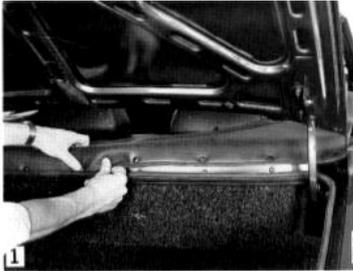

Material:
Vinyl fabric

Description:
A high quality re-manufactured Tonneau cover, closely modeled on the original and now unavailable accessory as provided by Saab. Complete with storage bag.

Note:
This tonneau cover is provided with a fitting kit that must be fitted to the car prior to following these instructions. Once the fitting kit is in place it is a simple job to add or remove the soft tonneau cover.

Soft Boot Cover - Usage Instructions

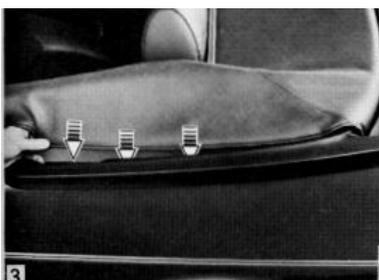

- Remove the soft boot cover from its storage bag and lay it over the cabriolet frame.
- Open the trunk and attach the nine press-studs on the rear edge of the soft boot cover, as shown in figure 1.

Figure 1

- Join the Velcro strips on the soft boot cover and the supporting rail behind the backrest cushion.

Figure 2

- Push down the plastic reinforcement on the sides of the soft boot cover behind the side parts of the spoiler on either side of the car.

Figure 3

- Secure the Velcro strip under the sides of the soft boot cover on the rails of the soft boot frame.
- Press the fingers against the Velcro strips so that they adhere well.

Figure 4

Figure 5

- Attach the Velcro strips on the rear/upper parts of the side trim, close to the sides of the neck-rest cushion, to their matching tapes on the soft boot cover.
- Attach the two press-studs on the front of the soft boot cover to the cover over the belt on either side of the car.

Cleaning

Use lukewarm water, if necessary with the addition of a synthetic detergent.

A medium-hard brush can be used.

Keep these operating instructions in the car.
